

What is available in the Computation Lab?

The Computation Lab in High Holborn is open to all CCI students and provides five workstations with high-performance Dell Alienware R16 computers:

- CPU: Intel i9-14900KF
- RAM: 64GB
- SSD: 4TB
- GPU: NVIDIA RTX 4090 (24GB VRAM)
- Display: LG 27" 4K HDR400

Booking

You should book and use the correct computer to avoid conflicting with other people's use of the machines.

If you come to a machine in use, please speak to a technician, as it may be used for a long-running task like AI training.

You can book these computers on [ORB](#). Please try to start overnight and weekend tasks after 19:00 so the computers can be used during the day for shorter sessions.

Future plans

We are continuing to work on developing this space with plans for a VR corner and electronics soldering facilities in future.

Revision #4
