

18/10/23: Intro to Git

Technician: Agnes

NOTES

This workshop is to introduce git, using the Command Line. This isn't the *only* way to interact with git, and lots of people at the CCI also like to use [Github Desktop](#). This workshop is based on the [carpentries intro to git workshop](#). If you have a windows computer, you will want to install [Git Bash](#).

Revision #2
